
FOR IMMEDIATE RELEASE

DATASPACE EARNS STATUS AS BUSINESS OBJECTS MIGRATION SPECIALIST

January 8, 2008 - ANN ARBOR, MI Dataspace Incorporated, an Ann Arbor, Michigan-based provider of Business Intelligence, Data Warehousing and Data Integration consulting services, announced that it has achieved certification as a BusinessObjects™ XI Release 2 Migration Specialist Partner of Business Objects, a worldwide leader in Business Intelligence software.

Migration Specialists have proven technical skills and extensive Business Objects migration training, as well as access to important tools that support migration. In achieving this unique certification, Dataspace met all technical requirements and displayed the skill set required to support customers with migration projects of varying complexity.

"As an authorized consulting and education partner of Business Objects, Dataspace is pleased to add Migration Specialist to our list of Business Objects credentials," said Benjamin Taub, President and Founder of Dataspace. "Customers needing migration services can have confidence that Dataspace has completed the training, accreditation, and certification required to earn the BusinessObjects XI Release 2 Migration Specialist designation."

For additional information regarding Business Objects training and migration services, contact Dataspace at 888-761-6371 or visit www.dataspace.com.
